PROFESSIONAL SUMMARY

Information Technology student with hands-on experience in Quality Assurance and UI/UX through internship and academic projects. Skilled in manual testing, test case design, bug reporting, wireframing, prototyping, and usability testing. Passionate about delivering high-quality software and continuously improving user experience.

EDUCATION

Diploma in Information Technology — Institut Teknologi Del (IT Del) **2023 – 2026 (Expected)** *Laguboti, Toba, North Sumatra*

- Focus on software engineering, software quality assurance, system analysis, and UI/UX design.
- Experienced in software testing, usability evaluation, test case design, bug reporting, and prototyping through academic and real-world projects.
- Proficient in Agile development practices and familiar with tools such as Figma, Jira, Katalon Studio, Postman, and SQL.

Senior High School — Science Track **2020 – 2023**
SMAN 1 Laguboti, Kab Toba

- Completed the Science Track curriculum with a strong foundation in mathematics and natural sciences.

Work Experience

Quality Assurance Intern - PT Indivara Teknologi Quantum **February 2026 – Present**

- Executed manual testing for web and mobile applications in the banking domain.
- Identified, documented, and tracked software defects using Jira.
- Performed regression, sanity, and functional testing to ensure application quality.
- Collaborated with developers, business analysts, and product teams to validate issue resolutions.
- Verified APIs using Postman and validated data using SQL when required.

PROJECTS

Web - Based Apotek Farma System **2024**
Role : UI/UX Designer & Quality Assurance

- Designed wireframes and user interfaces based on project requirements.
- Conducted usability reviews and manual testing to ensure functionality and user experience.
- Documented issues and collaborated with the team to improve the system.

Student Information System (Academic Project) **2025**
Role : Quality Assurance & UI/UX

- Created test scenarios and performed functional testing to ensure system quality.
- Conducted usability evaluation and improved user experience.
- Designed user flows, wireframes, and interactive prototypes using Figma.

Role: Data Annotation & Documentation

- Annotated and validated image datasets to ensure data accuracy and consistency.
- Prepared project documentation, including annotation guidelines and progress reports.
- Collaborated with team members to support AI model development and data quality.

Restaurant Ordering Mobile Application

2026

Role : UI/UX Design

- Conducted user research and designed user interfaces using Figma.
- Developed wireframes and high-fidelity prototypes.
- Focused on intuitive navigation and responsive user experience.

CERTIFICATION

-
- Software Quality Assurance with Katalon – After Office Academy| November 2025
 - Oracle Cloud Infrastructure Foundations – Oracle | September 2025
 - Data Visualization – Dicoding | July 2024

TECHNICAL SKILLS

UI / UX Design	: User Research, Personas, User Flow and Low–High Fidelity
Quality Assurance	: Manual Testing,Test Case, Bug Reporting,Test Documentation, UAT Support and Functional Testing
Tools & Technologies	: Figma, FigJam, Postman GitHub, RESTful APIs (basic understanding)
Methodologies	: Agile, Scrum and Waterfall
Languages	: English and Indonesian
